

**KOSOVO ENERGY EFFICIENCY  
AGENCY**

PROJECT CARD EEP-006 PB

- **Project Title**
- **Grant Amount**
- **Character**

- **Beneficiaries**

Ministry of Economic Develop-  
ments;  
Ministry of Education;  
Schools and Universities.

- **Expected results**

**ENERGY EFFICIENCY IN PUBLIC BUILDINGS**

**Pilot Project: "Near Zero Energy House"**

**Implementation of EE measures by retrofitting the old inefficient existing building in Kosovo**

**Euro 1,500,000 euro**

**Aims**

The aim is to use best practice projects:

- ◆ to accelerate the transfer of know-how,
- ◆ to introduce, develop and strengthen the commercial market for innovative technologies for the energy refurbishment of buildings, and
- ◆ to encourage emulation by transferable, economically

**Target groups.**

- ◆ Opinion leaders: architects and planners, engineers, energy advisers, building trades and building materials trade.
- ◆ Building contractors immediately prior to making a building or refurbishment decision.

**Communication.**

- ◆ Wide-ranging information, media and public relations campaigns.
- ◆ Web page with knowledge bases, technical information and a building database with examples of refurbishment.
- ◆ Planning manual with technical information about energy-efficient planning and construction.

**Regional networks**

In order to reinforce the domino effect of energy-efficient building refurbishment, setting up a network of existing regional centers of expertise.

**Press and public relation**

Another focus of the model project is press and public relations work and the distribution of information:

- ◆ Establishing the „regional dialogue“ series of events;
- ◆ "1st day of the open Zero-energy house" for nationwide information;
- Articles and television reports;

**Additional comments on the project:**

- ◆ Website with a knowledge database, expert information on energy-efficient refurbishment, and presentation of the refurbishment projects;
- ◆ Interactive CD all about energy-efficient refurbishment especially for the constructors of single-family houses and smaller apartment buildings;
- ◆ Information leaflets for specialists and end users.

This project has to be implemented within one calendaring year. Selected company for implementation should be fully specialized and have great experience in this field.

MED/KEEA will give its full contribution in monitoring, reporting and evaluation during implementation the project.

**Conformity with the strategic documents:**

This project is entirely in conformity with:

- \* Project will be implemented in Kosova;
- \* It relates to Energy sector;
- \* There is no other Donor Organization involved in this project;
- \* Beneficiary will be public entities;
- \* The project is in full conformity with sector's policies and investment plan outlined in Energy Strategy and KEEAP and EnCT recommendations
